### About the conference

After successful conduction of two national seminars involving speakers and participants from prestigious organizations, the department is charged up to organize a national conference on a topic of global relevance. This conference will cover recent developments of Physics, Technology and Applications of emerging materials. Materials science is technologically potential and practically relevant area of Research and Development from fundamental and application point of view. The aim of this conference is to hold an open deliberation on the state of art development of new emerging materials for research and development. It will provide a proper forum where senior academicians and young students would get opportunity to interact and discuss the recent trends in the materials and their developments.

The conference will have both invited talks and contributed papers. The contributed papers will be accommodated in oral and poster presentations.

### Scope of the Conference :

- Crystal growth and Characterization
- Soft and amorphous Materials & Glasses
- Materials Testing & Characterisation
- Dielectrics, ferroelectrics, MEMS & NEMS
- Thin films
- Metals, Composites, Ceramic and Polymer Materials
- Nonlinear Optical Materials
- Multifunctional Materials
- Nanoscience and Nanotechnology
- Magnetic, Electronic, Optoelectronic and Spintronic Materials
- Photonic Materials
- Energy storage materials
- Semiconducting and Superconducting Materials
- Luminescent materials
- Acoustic materials
- Spectroscopy and molecular dynamics
- Computational Physics

### About the University and South Campus

Telangana University is established through Act Number 28 of 2006, Government of Andhra Pradesh to cater to the academic pursuits of backward and rural student community. Telangana University has been the prestigious NAAC 'B' Grade with the good score of 2.61 in the first cycle assessment carried out in December 2015.

The South Campus located at Bhiknur is offering 4 courses including Physics. The campus has newly built spacious and well furnished hostels and going to have more academic and administrative buildings in a year or so. It is located in a peaceful environment and picturesque location.

### About Department of Physics

The department of Physics is one of the youngest departments of Telangana University offering M.Sc. Physics with electronics specialization and Ph.D. The department is having well qualified teaching and non-teaching staff and has well equipped labs. The students of this department are being selected in various organizations. Along with the teaching-learning process, the department is regularly conducting guest lectures, seminars to improve the skills of students and teaching community.

### Call for Papers
